EXPANDED COURSE DESCRIPTION: This course is designed to provide the student with the knowledge and tools to effectively promote positive change to lifestyle behaviors detrimental to an overall quality of life. The course will examine the bio-psycho-social theoretical models, concepts and challenges associated with making change. Along with the notion of making change, the course will explore the theoretical rationale, models and interventions employed in a relapse prevention program. A focus on the Dimensions of Wellness, the belief window, the health behavior models, the psychological components of health behavior change, the concepts of relapse prevention and the application of these concepts to specific lifestyle behaviors.

COURSE OBJECTIVES

By the conclusion of this course, students will:

1. Be able to understand the interrelationships of the 6 Dimensions of Wellness and their impact on quality of life.
2. Know and understand how people make choices and what the bio-psycho-social determinants are.
3. Gain the skills and abilities, as a health professional, to assess, identify and implement change to improve quality of life.
4. Understand the relapse prevention model and apply this model in a comprehensive lifestyle change program.

EXS 5500 (Formerly EXS 460) – HEALTHY LIFESTYLE CHOICES Winter 2018 Course Syllabus

5. Gain an appreciation for the difficulties in making change from an individual and professional position.
6. Apply your learning to become a more effective wellness provider.
7. Recognize the lifestyle factors associated with poor health and implement the appropriate behavior model.

COURSE ORGANIZATION: Materials will be presented primarily in the form of lectures, group discussions, and reading assignments from the handouts and Moodle. Lectures will cover points to be learned and will direct your study from the materials covered in class. Thus, you should attend class, pay attention while there, and take notes over the material. You should plan on two hours of study outside of class for every hour of lecture. The materials in the latter part of the course will be based upon materials in the first part of the course; therefore, you will have to commit the material to long term memory. The course lectures and reading materials will be available on Moodle. All course assignments will be submitted on Moodle unless otherwise indicated. Students will be required to post discussions to some of the assignments as indicated in the syllabus.

GRADUATE SEMESTER PROJECT: Graduate students will be required to complete a project for the semester pertaining to behavior change. The final project will be a presentation to the class on April 5th.

GRADING: Your grade will be based upon the total points earned on examinations, assignments, and quizzes (undergrad= 1110 points for the semester).

Winter 2018 Course Syllabus

WRITING ASSIGNMENTS: Students will be expected to submit a written assignment on the assigned article readings. They will be submitted on Moodle on the scheduled days. The total for these assignments is 220 points. The LTD Assignments must be submitted to Moodle by 11:55pm the day they are due.

Learning Through Discussion: LTD is a teaching method design to encourage class participation, reading, and deeper thought about the issues discussed in class. More detail will be posted on Moodle. Students will be responsible for turning in an outline for the assigned articles. There will be 4 LTD assignments each worth 30 points.

Chapter Reports: These reports will be completed in class. Students will present a PPT over the assigned reading materials. Your presentation will be worth 100 points. This will be a group assignment. In addition, each student is required to submit answers from the presentations. There will be 100 points, 10 points per presentation. This will allow you to miss four of the presentations. The PPT will be submitted to Moodle. The answer sheets will be turned in in class.

SWOT ANALYSIS: Each student will be required to complete this analysis. The format is posted on Moodle. I would like you to use this to analyze your success in this course. This is worth 100 points. This will be submitted on Moodle. Students must complete the SWOT assignment. This is an opportunity for each of you to evaluate your strengths, weaknesses, opportunities and threats to complete this course. There should be no excuses for turning in an assignment late. If you have computer issues then you need to make sure you have a “Plan B”.

EXPECTATIONS OF STUDENTS:

- Assigned readings must be completed prior to attendance at each class.
- Attendance is expected at all classes. Attendance will be randomly taken.
- Must complete 4 LTD
- Must complete 1 chapter reports
- Must complete 2 exams.
- A wellness Plan must be completed.
- Students with disabilities who may require special considerations should make an appointment to bring their needs to the attention of the instructor.

NOTE: Failure to submit an assignment by 11:55pm on a due date will result in a 5 point mark reduction, and if more than one day late (after 6:00pm following the due date) a zero grade for that assignment.

NOTE: Failure to submit ALL REQUIRED ASSIGNMENTS FOR THE COURSES will result in an incomplete (I) grade until all course expectations are fulfilled. Failure to subsequently fulfill all expectations will result in a failing grade. Incomplete grades must be initiated by the student. The student must be passing the class in order to be eligible for an “I” grade.
